### THE LIVERMORE BANK GOES OUT OF BUSINESS

Officers Were Unable to Realize  
on Assets of the  
Institution.

Frankfort, Ky., July 1.—Inability to realize on its assets caused the Bank of Livermore, at Livermore, Ky., to be closed this morning by its directors, who placed the bank in the hands of Banking Commissioner Smith for liquidation.

The bank was organized in 1909 with \$15,000 capital stock.

The bank has been in operation for the past 15 years, and has always done its share of the business at Livermore. C. W. Thomason is president and his son, C. W. Thomason, Jr., is cashier.

State Bank Examiner A. B. Farria, of Richmond, has been at Livermore since Monday investigating the books of the bank. Before the bank opened for business this morning, the directors held a meeting, and by a resolution passed, it was voted to place the affairs of the institution in the hands of the State Banking Commissioner for liquidation. Following this meeting the bank failed to open for business. It is thought that the depositors will get dollar for dollar.

There was a movement on foot several days ago to consolidate the Bank of Livermore with the Farmers' and Merchants' Bank of that place, but for some reason the proposition failed to materialize.

When you feel dizzy, out of sorts and yawn a good deal in the daytime, you can charge it to a torpid liver which has allowed the system to get full of impurities. Herbine cures all disorders produced by an inactive liver. It strengthens that organ, cleanses the bowels and puts the system in good healthy condition. Price 50c. #### Chlorine.

Chlorine, which in its liquid form the Germans are said to be using in their poison bombs, owes its discovery as an element, as well as its name, to a British chemist: Humphrey Davy. It was in 1810 that he found the mysterious gas to be undecomposable into other elements. Should we decide to flatter the Germans by imitating them there would

be no difficulty in finding the chlorine. The earth and the sea are full of it, in the form of salt. It would indeed be difficult not to find chlorine—in one or another of its combinations—wherever one tried, in earth, air or water; but it would be impossible to find it anywhere except in alliance with another element. Workmen who split up common salt—chlorine of sodium—in order to get the chlorine, grow fat in the process, but as a set-off their teeth decay.—[London Chronicle.]

#### Fined \$2 a Week For 3 Years.

In the Criminal Court to-day Burt H. Bailey pleaded guilty to stealing an automobile at Atlantic City. He was caught in Cleveland, Ohio, after a long joy ride. Judge Shinn fined him \$100, and ordered him to pay the probation officer \$2 a week for three years, of which the automobile owner will receive \$1.50 weekly for damage to the machine.—[Mays Landing (N. J.) Cor. N. Y. Times.]

Doing hard work in a bent or stooping position puts a stitch in the back that is painful. If the muscles have become strained, you can't get rid of it without help. The great penetrating power of Ballard's Snow Liniment will appeal to you most strongly at such times, because it is the very thing you need. Price 25c, 50c and \$1.00 per bottle. Sold by Wilbur Mitchell, Beaver Dam, Ky. (Advertisement)

#### Close Resemblance.

An elderly gentleman went into a photographic studio and asked to see the proofs of a picture recently taken of a young man whose name he gave. They were handed to him as a matter of course and he examined them critically. He seemed pleased and finally said:

"These are of my son. This one is a remarkably good photo of him—it is very like him, indeed. Has he paid you for it yet?"

"No, sir," said the photographer; "not yet."

"Ah," said the elderly gentleman, "very like him, indeed."

### "REGULATORS" DYNAMITE ALLEGED "JINGO" JOINTS

Youth Blown To Roof But Escapes Unhurt—Raiders Unidentified.

Madisonville, Ky., June 30.—"Regulators," between the hours of 3 and 4 o'clock yesterday morning, dynamited three alleged "Jingo" joints in the suburbs of Providence, all of the buildings being wrecked, and at one place Bedford Vinson, who was asleep on a cot, was blown to the top of the building, but escaped uninjured.

The report of the dynamiting reached here this morning. Last year, it seems, the city of Providence adopted an ordinance prohibiting the sale of "Jingo" and other malt drinks in the city. "Near beer" stands have since flourished in the suburbs, it is claimed. The stands wrecked, were owned by Mitchell Morrison, Cat Morgan and Nichols & Oglesby.

Morrison's stand was waited on first, about 3 o'clock. He was conducting his place of business in the shed of a stable, and the "Regulators" placed their dynamite charge on that side of the building, which was blown out. Bedford Vinson, 18 years old, was asleep on a cot in the stable, and the explosion sent him to the roof, without injury. He stated he saw no one, but about ten minutes later heard another explosion, which wrecked the stand of Cat Morgan, a short distance away. No one was in it at the time. Nichols & Oglesby's was the last place to be visited, and their stand was also blown to splinters.

The work of the "Regulators" was done very quietly and effectively, and no one saw any of the men in the party. It is said, warnings were left for the proprietors, advising them not to open up again.

Reports have reached here that several "soft drink" stands in the rural sections of this, Muhlenberg, and Webster counties had been blown up during the last ten days.

#### Farmers and Automobiles.

Take the 10 States of the Middle West known as the grain belt. Illinois, Iowa, Minnesota, Nebraska, Wisconsin, Missouri, Kansas, South Dakota, North Dakota and Oklahoma. Four years ago these 10 States

owned 130,000 automobiles; the proportion of farm machines was perhaps one in ten. The number of motor cars in these 10 States has quadrupled in the last three years, and more than doubled in the last two years, so that on January 1, 1915, by figures furnished by the various Secretaries of State, the number of cars was 559,730. Of this immense total fully one-half belong to farmers. The number in the 10 States is increasing at the rate of 13,000 machines a month, 425 a day. The average value of these machines was \$980.—[Farm and Fireside.]

When the baby is suffering the double affliction of hot weather and bowel disorders, the remedy needed is McGee's Baby-Elkix. It reduces the feverish condition, corrects the stomach and checks the looseness of the bowels. Price 25c and 50c per bottle. Sold by Wilbur Mitchell, Beaver Dam, Ky. (Advertisement)

Progress From Napoleon. Napoleon's famous saying was that "an army travels on its belly," which was to say that it had to depend on its food supply, and could not with safety move faster than its commissary department. The Gallican campaign has demonstrated that in modern warfare an army advances on its ammunition supply. It may have food in plenty, but without an enormous supply of shells and shrapnel and smaller ammunition it cannot make progress against a well-armed enemy.—[Springfield Union.]

Beauty More Than Skin Deep. A beautiful woman always has good digestion. If your digestion is faulty, Chamberlain's Tablets will do you good. Obtainable everywhere. Advertisement.

A Clock Of Straw. A clock has recently been completed in Switzerland made entirely of straw and willow withes. There is not a single piece of metal in it. The chimies are made of straw, put through a special process to give them a ringing tone. Thirty months were required to build the clock, which is nine feet high.

Diarrhoea Quickly Cured. "About two years ago I had a severe attack of diarrhoea which lasted for over a week," writes W. C. Jones, Buford, N. D. "I became so weak that I could not stand upright. A druggist recommended Chamberlain's Colic, Cholera and Diarrhoea Remedy. The first dose relieved me and within two days I was as well as ever." Obtainable everywhere. Advertisement.
